

Fostering

We always need people to foster animals, either short or long term. This mainly applies to our younger animals, kittens or puppies, or perhaps an animal that needs a one to one to bring it on. We provide all the food and any veterinary treatment that may be needed. There are no special skills needed, only a commitment to the animal being fostered, patience and understanding. Fostering can be very rewarding; knowing that you have helped an animal on its way to a full and happy life.

We are looking for fosterers within a fifteen mile radius of Darlington.

If you are on a low income you may be eligible for financial help with the cost of spaying and neutering. Contact [NASSL](#) for further details.
